BUILD LEANER · FREE KIT · ANY BUSINESS · ANY AI

Does AI recommend your business?

The 5-question test, a score out of 30, and the 9 fixes in order. Works in ChatGPT, Gemini, Claude, Google AI Mode or any AI. Free plans work.

The 4 steps (about 1 hour the first time)

1. Build your profile. Paste the Profile Builder into any AI. Answer 3 rounds. Save the file.
2. Run the test. Ask your 5 buyer questions in a temporary or incognito chat in each AI. Copy every answer.
3. Score it. Paste the Visibility Checker, your profile and the answers. Get a score out of 30 and your top 3 fixes.
4. Fix, then re-test in 30 days. Log the score in the tracker every month.

The 9 fixes

[ ]	1	**Google Business Profile.** Every field filled: category, services with prices, hours, description, real photos.
[ ]	2	**Bing Places.** Claim it free. Import from Google. Bing Search and Maps; Copilot is reported to use the same listings.
[ ]	3	**ChatGPT Business Hub.** New. Claim your business in ChatGPT (free), verify it, fill every field. Local shops: US listings only for now. Not a ranking boost.
[ ]	4	**Same facts everywhere.** Exact same name, address, phone and hours on every page and profile.
[ ]	5	**Website says it plainly.** Who, what, where and proof up top. A section per service with a price. A real FAQ.
[ ]	6	**Let AI search crawlers in.** robots.txt and your host or CDN allow crawlers, including OAI-SearchBot.
[ ]	7	**Honest reviews.** Ask every customer. No rewards. Reply to every review.
[ ]	8	**Get mentioned.** Real local directories, associations, partners, press, podcasts.
[ ]	9	**Re-test monthly.** Same 5 questions, same temporary chats. The trend is what counts.

Skip these

Fake, paid or rewarded reviews, or asking only happy customers (Google bans them). **Keyword stuffing** (Google says AI understands normal words). **llms.txt for Google** (Google says it doesn't use it). **Bought mentions** (Google says they don't help much).

Honest limits: nobody outside these companies knows the exact formula, and OpenAI has not published how it ranks businesses (claiming a Business Hub profile is not a ranking boost). These fixes come from what Google, OpenAI and Microsoft publish and from large public tests. Nothing can guarantee you get named. Results take 30 to 90 days. Sources: BrightLocal Local Consumer Review Survey 2026; SOCi Local Visibility Index 2026; Google Search Central; OpenAI crawler docs; OpenAI Businesses in ChatGPT; Google Maps content policy. Checked November 2026.

start-here.txt

Start here

START HERE: THE AI VISIBILITY KIT
Build Leaner. buildleaner.com/ai-visibility. Valid as of November 2026. The tools will change. The method won't.

WHAT THIS IS
More people now ask AI who to use instead of searching. AI names only a few businesses, the ones it is confident about.
This kit shows you if AI recommends your business, and what to fix so it can.
Works for any business: a clinic, a salon, a shop, a trade, an agency, a coach, a creator.
Works in ChatGPT, Gemini, Claude, Google AI Mode or any AI. Free plans work.

WHAT IS IN THE FOLDER
1. start-here.txt: this page.
2. profile-builder-prompt.txt: paste it into any AI. It interviews you and writes your AI Visibility Profile.
3. visibility-checker-prompt.txt: paste it with your test answers. It scores you and picks your top 3 fixes.
4. ai-visibility-profile-blank.txt: the profile, empty, if you prefer to write it by hand.
5. luma-med-spa-profile-example.txt: a finished profile for a made-up clinic. SAMPLE.
6. practice-answers-luma.txt: made-up AI answers to practice the Checker. SAMPLE.
7. robots-example.txt: a robots.txt that lets search crawlers in, including ChatGPT search.
8. score-tracker.csv: open it in Google Sheets or Excel and log your score every month.
9. ai-visibility-kit.pdf: the checklist and every file in one PDF.

THE 4 STEPS (about 1 hour the first time)
Step 1. Build your profile (15 minutes)
  Open a new chat in any AI. Paste profile-builder-prompt.txt. Answer 3 short rounds. Save what it writes as my-ai-visibility-profile.txt.
Step 2. Run the test (15 minutes)
  Open a temporary or incognito chat in each AI:
  - ChatGPT: Temporary Chat (top of the screen).
  - Gemini: Temporary chat.
  - Claude: incognito chat (the ghost icon). Make sure web search is on.
  - Google: AI Mode, in a private browser window.
  Ask your 5 buyer questions from part 3 of your profile, one at a time. Copy every answer.
Step 3. Score it (5 minutes)
  New normal chat. Paste visibility-checker-prompt.txt, then your profile, then the answers. You get a score out of 30 and your top 3 fixes.
Step 4. Fix, then re-test in 30 days
  Do the fixes in order. Log your score in score-tracker.csv. Ask the same 5 questions again next month.

THE 9 FIXES (the checklist)
[ ] 1. Google Business Profile: every field filled. Google says Business Profiles help your services be visible in its AI responses.
[ ] 2. Bing Places: claimed (free). Import from Google. You show on Bing Search and Bing Maps, and Copilot is reported to draw on the same listings.
[ ] 3. ChatGPT Business Hub: claim your business in ChatGPT (new, free). Verify it, fill every field. Online businesses: wherever ChatGPT is available. Local shops and restaurants: existing US listings only, for now.
[ ] 4. Same name, address, phone and hours everywhere.
[ ] 5. Website says who, what, where, with prices and an FAQ.
[ ] 6. robots.txt and your host or CDN let search crawlers in, including OAI-SearchBot.
[ ] 7. Honest reviews from every customer. Reply to all of them.
[ ] 8. Mentioned on other real sites in your area or field.
[ ] 9. Same 5 questions, every month. Log the score.

SKIP THESE (they waste time or break rules)
- Fake, paid or rewarded reviews. Asking only happy customers. Google bans all of these.
- Keyword stuffing. Google says AI understands normal words and meaning.
- An llms.txt file for Google. Google says it does not use it. It does not hurt, but it is not the fix.
- Buying mentions or fake "best of" lists. Google says inauthentic mentions do not help much.

HONEST LIMITS
- Nobody outside these companies knows the exact formula. OpenAI has not published how it ranks businesses. Claiming your Business Hub profile lets you manage your facts; OpenAI does not say it makes ChatGPT recommend you more. These fixes come from what Google, OpenAI and Microsoft publish, and from large public tests.
- Results move slowly. Give it 30 to 90 days.
- AI answers change by day, location and wording. One test is a snapshot. The monthly trend is what counts.
- Nothing here can guarantee you get named. It makes it much easier for AI to be sure about you.

Want it done for you? Digital Medium sets this up for businesses: digitalmedium.cc

profile-builder-prompt.txt

Profile Builder

AI VISIBILITY PROFILE BUILDER
Works in Claude, ChatGPT, Gemini or any AI. Free plans work. Last checked: November 2026.
Paste this whole prompt into a new chat and send. Then answer the questions.

==========

You are going to interview me and write MY AI VISIBILITY PROFILE: one plain text file with everything AI tools need to understand, trust and recommend my business.
When someone asks ChatGPT, Gemini, Claude or Google's AI "who should I use for this?", the AI only names businesses it is confident about. Confidence comes from facts that match everywhere: my listings, my website, my reviews and what other sites say about me. This file is the single source of those facts.

HOW TO INTERVIEW ME
- Ask in 3 short rounds. Up to 7 numbered questions per round. Wait for my answers before the next round.
- Plain words. After each question, put an example answer in brackets.
- If I skip a question or say "I don't know", suggest a common choice for my type of business, mark it (starter), and ask me to confirm it next round.
- If I paste something I already have (my website text, my Google Business Profile, a bio, an AI OS file), use it and do not ask me again.

Round 1, the facts: business name exactly as I want it written; business type (match it to the closest line in the FOCUS LIST below and tell me which one you picked); the one city or area I serve (or "online"); full address, or service area if customers never visit; main phone; website; opening hours; my top 3 to 5 services or products with a starting price for each; how people book or buy (link).
Round 2, customers and proof: who my best customers are; the words they type when they look for me (example: "botox near me", "lip filler Fort Lauderdale"); the 5 questions people ask before they buy; 2 or 3 competitors AI might name instead of me; what makes me different, with proof (numbers, years, credentials, awards); team credentials that matter for trust.
Round 3, where I show up: my review sites with star rating and review count (Google, Yelp, Facebook, others); which listings I have claimed: Google Business Profile, Bing Places, ChatGPT Business Hub, Apple Business Connect, others; my social profiles and links; any press, podcasts, partner pages, associations or directory listings that mention me; anything wrong I have seen online about my business (old address, old hours, old name).

FOCUS LIST: WHAT AI CHECKS FIRST, BY BUSINESS TYPE
Use the matching line to decide what goes first in parts 4 and 9 of the profile.
- Med spa or aesthetic clinic: treatment names plus city, licensed injectors and medical director, reviews that name treatments, "from" prices, an online booking link. Medical claims always go to a human.
- Dental clinic: services plus city, dentist credentials, insurance accepted, emergency hours, reviews.
- Salon, barber or beauty studio: services plus neighborhood, prices, stylists and their specialties, photos of real work, booking link.
- Gym, fitness or yoga studio: class types, schedule, trial offer, price per month, coach credentials.
- Restaurant or cafe: cuisine plus neighborhood, menu with prices, hours, reservation link, dietary options. Allergy claims always go to a human.
- Real estate agent or broker: areas served, property types, license number, recent sales, reviews.
- Home services (cleaning, repairs, trades): service area towns, license and insurance, emergency availability, prices or quote process.
- Online store: product category, shipping countries, return policy, marketplace ratings, product pages with real specs.
- Agency, consultant or coach: who you help, the result, case studies with numbers, LinkedIn, directory profiles.
- Retail shop: what you stock, brands, hours, location, in-store pickup.
- Other (creator, freelancer, any other business): who you help, what you make or do, where people can see your work, the same bio on every profile.

THEN WRITE MY AI VISIBILITY PROFILE
When the 3 rounds are done, write the whole file inside one code block, so I can copy it in one click. Use exactly these headings:

MY AI VISIBILITY PROFILE: (business name)
Last updated: (today's date)

1. FACT SHEET (copy this exact text everywhere)
Name, type, address or service area, phone, website, hours, booking link. One line each. Never vary the spelling.

2. ONE-LINER (25 words max)
Who we help, what we do, where, and one piece of proof.

3. THE 5 BUYER QUESTIONS (ask these in every AI, once a month)

1. FIND: (the most common search, type + place)
2. FIND: (a problem a customer has + place)
3. FIND: (one specific service + a detail that matters)
4. KNOW: What is (business name) in (place)?
5. TRUST: Is (business name) good? What do reviews say?

4. LISTINGS TO CLAIM AND COMPLETE
A checklist in order: Google Business Profile, Bing Places (import from Google), ChatGPT Business Hub (claim in ChatGPT; use the long bio from part 7 as the description), Apple Business Connect, then 3 listings that matter most for my type. Mark the ones I already have.

5. WEBSITE COPY
- Home page intro: 3 sentences that say who, what, where and proof.
- One short section per top service: what it is, who it is for, starting price, how to book.
- FAQ: the 5 questions customers ask before buying, each with the true answer.

6. STRUCTURED DATA (optional)
A JSON-LD block using the closest schema.org LocalBusiness type, with only the facts from part 1. Leave out any field I did not confirm.

7. BIOS
Short bio (under 160 characters) and long bio (under 300 characters). Same facts as part 1.

8. REVIEW REQUEST
A short message to send to every customer after a visit, asking for an honest review on Google. No discount, gift or reward. Not only happy customers: everyone.

9. PLACES TO BE MENTIONED
10 directories, associations, local sites or lists that fit my type and place. Mark each one (verify): I must check it exists before I use it.

CHANGE LOG
- (today's date): First version.

RULES FOR YOU
- Use only my answers. Never invent a review count, a rating, an award, a price, a credential or a fact. Anything I did not confirm stays marked (starter).
- Never suggest fake reviews, paid reviews, rewards for reviews, asking only happy customers, reviews written by staff, or buying mentions. These break Google's review rules and can get a profile restricted.
- Never stuff keywords. Write the way a customer talks.
- Medical, legal, financial or safety claims: write them as plain facts I gave you, and add [HUMAN CHECK] next to any claim a regulator might care about.
- Never put client names, health details or private phone numbers in the file.
- Plain words a 12-year-old could follow.
- After the code block, tell me in 3 short lines: save it as my-ai-visibility-profile.txt, ask the 5 buyer questions in a temporary or incognito chat in each AI, then paste the answers into the Visibility Checker.

Start with Round 1 now.

visibility-checker-prompt.txt

Visibility Checker

AI VISIBILITY CHECKER
Works in Claude, ChatGPT, Gemini or any AI. Free plans work. Last checked: November 2026.
Use it after you ask your 5 buyer questions in each AI.

HOW TO USE IT
1. Open a temporary or incognito chat in each AI you test (ChatGPT: Temporary Chat. Gemini: Temporary chat. Claude: incognito chat. Google: AI Mode in a private browser window). This keeps your own history and memory out of the answer, so you see what a stranger sees.
2. Ask the 5 buyer questions from your profile, one at a time. Copy each answer.
3. Open a new normal chat. Paste this whole prompt, then your profile (or just your fact sheet), then all the answers, labeled by AI and question number. Send.

==========

You are my AI Visibility Checker. You score how well AI tools know and recommend my business, and you tell me what to fix first.

MY BUSINESS TYPE: (write it here, for example: med spa. If blank, read it from my profile.)

FOCUS: what matters first for my type, from this list:
- Med spa or aesthetic clinic: treatment names plus city, licensed injectors and medical director, reviews that name treatments, booking link. Medical claims go to a human.
- Dental clinic: services plus city, dentist credentials, insurance, emergency hours.
- Salon, barber or beauty studio: services plus neighborhood, prices, stylists, photos of real work.
- Gym, fitness or yoga studio: class types, schedule, trial, price per month.
- Restaurant or cafe: cuisine plus neighborhood, menu, hours, reservations. Allergy claims go to a human.
- Real estate agent or broker: areas, property types, license, recent sales.
- Home services: service area towns, license and insurance, emergency availability.
- Online store: product category, shipping, returns, ratings, real specs.
- Agency, consultant or coach: who you help, the result, case studies with numbers.
- Retail shop: what you stock, brands, hours, location.
- Other (creator, freelancer, anything else): who you help, where people see your work, the same bio everywhere.

HOW TO SCORE
For each AI and each of the 5 questions:
- 2 points: my business is named and the facts about it are right.
- 1 point: I am named but low in the list, or with a wrong or old fact, or only after a follow-up.
- 0 points: I am not named, or the AI says it does not know me.
Each AI scores out of 10. Add up all the AIs for the total (3 AIs = out of 30).

WRITE THE RESULT IN EXACTLY THIS FORMAT

SCORE CARD
A table: AI | Q1 | Q2 | Q3 | Q4 | Q5 | Total /10

VERDICT
One line per AI, using one word: RECOMMENDED (8 to 10), MENTIONED (4 to 7), INVISIBLE (0 to 3), or WRONG INFO (any wrong fact about me, whatever the score).

WRONG FACTS
Every fact an AI gave about me that does not match my fact sheet: what it said, what is true, and where the wrong fact probably lives (if the AI showed a source). If none, write "None found."

WHO IT NAMED INSTEAD
The businesses named most often across all answers, and the sources the AIs showed (sites, directories, review platforms). Only list what is in the answers.

FIX THIS FIRST
My top 3 fixes, in order, picked from THE 9 FIXES below. For each one: why (point to the answer that shows the problem), and "Do this today:" one action I can finish in under 30 minutes.

NOT COVERED
Anything you could not judge from what I pasted, and anything that needs a human: medical, legal, money or safety claims.

CONFIDENCE
Low, medium or high, and one line on why. Answers from a single test are a snapshot. AI answers change by day, place

and wording.

THE 9 FIXES
1. Google Business Profile: claim it and fill every field: category, services with prices, hours, description, photos.
2. Bing Places: claim it (free) and import from Google. It puts me on Bing Search and Bing Maps, and Copilot is reported to draw on the same listings.
3. ChatGPT Business Hub: claim my business in ChatGPT (free; sidebar, Business Hub), verify it, and fill every field. Online businesses can claim where ChatGPT is available; local shops and restaurants only an existing US listing for now. It is not a ranking boost.
4. Same facts everywhere: the exact name, address, phone and hours on the website, every listing and every profile.
5. Website says it plainly: who, what, where on the home page, one section per service, an FAQ with the real answers.
6. Let AI search crawlers in: robots.txt and any firewall or CDN must allow search crawlers, including OAI-SearchBot for ChatGPT search and Googlebot.
7. Honest reviews from every customer: ask everyone, never pay or reward, reply to every review.
8. Get mentioned on other real sites: local directories, associations, partners, local news, podcasts.
9. Re-test every month with the same 5 questions and log the score.

RULES FOR YOU
- Use only my profile and the answers I pasted. Never invent a ranking, a source, a competitor or a reason.
- If the answers are missing or cut off, say what is missing and score only what you have.
- Never suggest fake reviews, paid or rewarded reviews, asking only happy customers, keyword stuffing, hidden text, or buying mentions.
- You do not post, change, submit or contact anything. You only report and suggest.
- Plain words. Short sentences.

Sample: Luma Med Spa profile

```
# MY AI VISIBILITY PROFILE: Luma Med Spa
Last updated: November 9, 2026
SAMPLE. Luma Med Spa is a made-up business. Every name, number and review count below is invented to show what a
finished profile looks like.

## 1. FACT SHEET (copy this exact text everywhere)
Name: Luma Med Spa
Type: Medical spa (aesthetic clinic)
Address: 123 Example Ave, Suite 200, Fort Lauderdale, FL 33301
Phone: (954) 555-0142
Website: lumamedspa.example
Hours: Tuesday to Saturday, 10 AM to 7 PM. Closed Sunday and Monday.
Booking link: lumamedspa.example/book

## 2. ONE-LINER (25 words max)
Luma Med Spa in Fort Lauderdale offers Botox, filler and skin treatments by licensed nurse injectors, with 640 Google
reviews at 4.9 stars.

## 3. THE 5 BUYER QUESTIONS
1. FIND: What are the best med spas in Fort Lauderdale?
2. FIND: Where can I get natural-looking lip filler in Fort Lauderdale?
3. FIND: Which med spa near downtown Fort Lauderdale has licensed nurse injectors and online booking?
4. KNOW: What is Luma Med Spa in Fort Lauderdale?
5. TRUST: Is Luma Med Spa good? What do reviews say?

## 4. LISTINGS TO CLAIM AND COMPLETE
[x] Google Business Profile (category: Medical spa. Services and "from" prices added.)
[ ] Bing Places (import from Google)
[ ] ChatGPT Business Hub (claim in ChatGPT, verify, fill every field)
[ ] Apple Business Connect
[x] Yelp
[ ] RealSelf provider profile (verify)
[x] Instagram business profile with the same address and phone

## 5. WEBSITE COPY
Home page intro:
Luma Med Spa is a medical spa in downtown Fort Lauderdale. Our licensed nurse injectors offer Botox, lip and cheek
filler, and skin treatments, under the supervision of our medical director. Book online in 2 minutes, Tuesday to
Saturday.

Service sections:
- Botox: softens frown lines, forehead lines and crow's feet. From $12 per unit. Takes about 20 minutes. Book at
lumamedspa.example/book.
- Lip filler: natural-looking volume and shape. From $650 per syringe. Takes about 45 minutes, including numbing.
- HydraFacial: deep cleanse and hydration with no downtime. From $199. Takes about 50 minutes.

FAQ:
Q: Who does the injections?
A: Licensed nurse injectors, supervised by our medical director. [HUMAN CHECK]
Q: How much does Botox cost?
A: From $12 per unit. Most frown-line treatments use 20 to 25 units. Your injector confirms the dose at your consult.
Q: Do you take deposits?
A: Yes, a $50 deposit holds your time and goes toward your treatment.
Q: Is parking available?
A: Yes, in the garage on Example Ave. We validate 2 hours.
Q: Can I book online?
A: Yes, at lumamedspa.example/book, any time.

practice-answers-luma.txt

Sample: practice answers

PRACTICE ANSWERS FOR THE VISIBILITY CHECKER
SAMPLE. These answers are made up, written to look like real AI answers, so you can practice before you test your own business. Luma Med Spa and every competitor below are invented.
How to use: paste visibility-checker-prompt.txt, then luma-med-spa-profile-example.txt, then everything below. Send.

=== CHATGPT ===
Q1. What are the best med spas in Fort Lauderdale?
Here are some well-reviewed med spas in Fort Lauderdale: 1. Sample Glow Aesthetics, known for injectables and laser. 2. Demo Skin Studio, popular for facials. 3. Example Ridge Med Spa, offers Botox and body contouring. Check recent reviews and confirm provider credentials before booking.

Q2. Where can I get natural-looking lip filler in Fort Lauderdale?
Sample Glow Aesthetics and Example Ridge Med Spa are often mentioned for lip filler. Look for a licensed injector and ask to see before-and-after photos.

Q3. Which med spa near downtown Fort Lauderdale has licensed nurse injectors and online booking?
Sample Glow Aesthetics offers online booking and has nurse injectors. Luma Med Spa downtown may also offer injectables. Check their website for booking.

Q4. What is Luma Med Spa in Fort Lauderdale?
Luma Med Spa is a medical spa in Fort Lauderdale offering Botox, fillers and facials. It is located on Sample Boulevard and is open Monday to Friday.

Q5. Is Luma Med Spa good? What do reviews say?
I could not find many reviews for Luma Med Spa. You may want to check Google Maps or Yelp directly.

=== GEMINI ===
Q1. What are the best med spas in Fort Lauderdale?
Top-rated options include Sample Glow Aesthetics (4.8 stars), Luma Med Spa (4.9 stars, 640 reviews) and Example Ridge Med Spa (4.7 stars).

Q2. Where can I get natural-looking lip filler in Fort Lauderdale?
Luma Med Spa and Sample Glow Aesthetics both have reviews that mention natural-looking lip filler.

Q3. Which med spa near downtown Fort Lauderdale has licensed nurse injectors and online booking?
Luma Med Spa on Example Ave has licensed nurse injectors and online booking at lumamedspa.example/book.

Q4. What is Luma Med Spa in Fort Lauderdale?
Luma Med Spa is a medical spa at 123 Example Ave in downtown Fort Lauderdale. It offers Botox, filler and HydraFacials, open Tuesday to Saturday.

Q5. Is Luma Med Spa good? What do reviews say?
It has a 4.9-star rating from about 640 Google reviews. Reviewers often mention the nurse injectors and natural results.

=== CLAUDE (web search on) ===
Q1. What are the best med spas in Fort Lauderdale?
Based on the sources I found, frequently recommended options include Sample Glow Aesthetics and Demo Skin Studio. Reviews and credentials vary, so compare a few.

Q2. Where can I get natural-looking lip filler in Fort Lauderdale?
Sample Glow Aesthetics appears in several local lists for lip filler.

Q3. Which med spa near downtown Fort Lauderdale has licensed nurse injectors and online booking?
I found Sample Glow Aesthetics. I could not confirm others from the sources available.

Q4. What is Luma Med Spa in Fort Lauderdale?
I could not find reliable information about Luma Med Spa.

Q5. Is Luma Med Spa good? What do reviews say?
I don't have enough information about Luma Med Spa's reviews.
